Moe's Corner:

In 1950, Chevy introduced the Powerglide, the very first automatic transmission on an affordable vehicle. The public was delighted in the ease of driving the new Chevy automatic.

How the ColorBond paint system takes metal roofing to a new level...

Researched & developed over the past 50 years

Understated, yet undeniably beautiful, the COLORBOND® paint system helps protect steel from UV exposure and various weather conditions, including extreme heat and cold, dust, rain, wind and hail. And what is COLORBOND®?

Composed of proprietary paint and pretreatments, the COLORBOND® paint system uses a polymer primer and ceramic (inorganic) finishing coat that's oven-cured to improve adhesion and film integrity and reduce peeling, chipping and cracking. The finish coat also features solar-reflective ceramic pigments, which help conserve energy in homes and commercial buildings and contribute to the sustainability of the installation.

Tested To Last. For over 50 years, COLORBOND® – developed by BlueScope Steel and leading paint companies – has undergone Australian research and development in some of the harshest weather conditions on the planet. In these regions, corrosive environments and high solar intensity can take a toll on painted products. But with COLORBOND® pre-painted steel, surfaces offer superior resistance to corrosion, dirt retention, chalking and color fading and provide excellent gloss retention for lasting beauty.

To see a sample of metal roofing that uses ColorBond technology simply stop by Eastern States Metal Roofing at 7820 Route 474 in Panama, NY or call 716-355-4374.

ABSOLUTE REAL ESTATE AUCTION
30.8 AC. FARM
SAT. APRIL 4, 2020 @ 11:00 AM SHARP
Located: 7552 Beaver Street Springboro, PA 16435. From Springboro go west on Beaver ST approx. 1 mile to auction.

Real Estate Consisting of: 1.5 story farm house, approx. 1664 sq ft 3 Bdrm, 2 baths, full basement; 47x46 Bank Barn w/ a 130'x38' tie stall addition with barn cleaner; Machine Shed 70'x40' pole barn; Shop 50'x40'; 2 cement silos. Buildings are situated in Spring township, Crawford County on 30.8 surveyed acres with 785' of road frontage. Land is all open and currently grassland. "The property is being sold "As Is". USDA/Farm Service Agency is aware of the presence of Lead Based Paint and also we have seen evidence of mold in and on the house. Pursuant to Section 101(20) E-G of the Comprehensive Environmental Response, Compensation, and Liability Act (CERCLA), 42 U.S.C. 9601(20)(E)-(G), the United States is a lender that did not participate in the management of the property, and therefore, the United States is excluded from the definition of an "owner" or "operator" pursuant to CERCLA. Accordingly, the provisions of section 120(h) of CERCLA, regarding the cleanup/remediation of property "owned" by the United States prior to transfer to another party, do not apply to this sale. The United States has not undertaken remediation of the property and makes no representation that the property has been remediated so as to be protective of human health and/or the environment." The Grantee is restricted from inhabiting or allowing the occupation of 7552 Beaver Street (aka 7624), Springboro, PA 16435 until any LBP hazards of the said dwelling have been abated according to the requirements of 40 CFR 745.227 and a copy of the abatement report described at 40 CFR 745.227(e)(10) has been provided to the Grantor.
Note: Selling Real Estate only, Be on time.
R.E. Auction Terms: 10% Deposit Auction Day. Balance within 45 days w/ deed transfer.

How the ColorBond paint system takes metal roofing to a new level...

Researched & developed over the past 50 years

Understated, yet undeniably beautiful, the COLORBOND® paint system helps protect steel from UV exposure and various weather conditions, including extreme heat and cold, dust, rain, wind and hail. And what is COLORBOND®?

Composed of proprietary paint and pretreatments, the COLORBOND® paint system uses a polymer primer and ceramic (inorganic) finishing coat that's oven-cured to improve adhesion and film integrity and reduce peeling, chipping and cracking. The finish coat also features solar-reflective ceramic pigments, which help conserve energy in homes and commercial buildings and contribute to the sustainability of the installation.

Tested To Last. For over 50 years, COLORBOND® – developed by BlueScope Steel and leading paint companies – has undergone Australian research and development in some of the harshest weather conditions on the planet. In these regions, corrosive environments and high solar intensity can take a toll on painted products. But with COLORBOND® pre-painted steel, surfaces offer superior resistance to corrosion, dirt retention, chalking and color fading and provide excellent gloss retention for lasting beauty.

To see a sample of metal roofing that uses ColorBond technology simply stop by Eastern States Metal Roofing at 7820 Route 474 in Panama, NY or call 716-355-4374.
